SUMMARY

Frontend developer with over 4 years of experience in designing and building integration-ready, user-friendly web applications using wide-range stack of technologies as React, TypeScript, TailWind and other modern tools/frameworks as well as pure HTML/CSS/JS. Experienced building software from scratch and working with legacy code.

Innovative optimized solution seeker and adept at identifying opportunities to enhance front-end design and improve the user experience.

WORK EXPERIENCE

WiseUpStudio	SC, USA
Frontend Developer	Mar 2020 – May 2023

Developed websites, PWA and specific interactive components, provided code review. Applied frameworks (React/Redux, Bootstrap, Tailwind) as well as used pure HTML, CSS and JS. Following best practices using BEM, responsive web design and Mobile First application principles.

- Created new websites from concept in collaboration with other developers and solo using HTML, SCSS and JavaScript based on Gulp + TWIG, Bootstrap.
- Implemented Progressive Web Applications technology increased the user satisfaction level up to 95%.
- Improved sites loading speed up to 45% by optimizing images loading and reducing amount of AJAX requests when possible, created SPA to improve user experience.
- Applied responsive design techniques so the websites could be viewed on any device as intended increased mobile traffic at 60%.
- Participated in peer code reviews as appropriate for the task at hand and using TypeScript cut amount of user error reports up to 35%.
- Collaborated with product designers to develop new features as specific-designed galleries and carousels, theme switchers, etc.
- Boosted code efficiency by 15% by identifying and fixing bottlenecks.
- Created templates and maintained CraftCMS based websites.

ServiceCom	**Irkutsk, Russia**
Junior Frontend Developer	Jan 2019 – Feb 2020

Created websites in collaboration with designers and senior developers.

- Developed and maintained websites using HTML/CSS/JS and Bootstrap/Gulp/TWIG, created pixel-perfect design, using BEM and ES6 to meet the high development standards.
- Developed code to convert design wireframes or mock-ups into pixel-perfect website elements under supervision.
- Participated in code reviews and worked with senior developers to improve code quality and best practices.

Ecostroy   **Irkutsk, Russia**
System Engineer   Jun 2015 – Jan 2019

Planned strategy of IT development, configuration of security settings and access permissions for individuals and groups, implement the complex virus malware protection strategy. Communicated with third party System Engineer Groups for the creation of optimal solutions for business support.

- Performed in-depth analysis of system trends to identify and solve problems and to improve technical capacity to meet usage demands.
- Implemented new technologies optimized operational efficiency up for 30%.
- Created the specific Software for small groups, providing integration with Microsoft Office. It helped to avoid data entry mistakes and speed up operations on up to 80%.

EDUCATION

Baikal State University   **Irkutsk, Russia**
Master's Degree, Major in Computer Information Systems

SOFT SKILLS

- Flexibility and adaptability to adjust to changing project requirements and priorities
- Ability to work independently or as part of a team
- Creative problem-solving skills to find innovative solutions to design and technical challenges
- Strong work ethic and a commitment to delivering high-quality work

ADDITIONAL INFORMATION

- Certifications & Training: AWS CCP, Scrum PSM-II.
- Technical Skills: HTML/CSS, JS, SPA, Bootstrap, Tailwind, Gulp, Twig, Webpack, React, Redux, GIT, Docker, BEM, AWS Architecture, TypeScript, CraftCMS, JEST, PWA, ES6.
- Soft skills: problem-solving, growth mindset, responsibility, self-motivation, communication.
- Methodologies: BEM, Responsive Web Design, Mobile First Design, Kanban, Agile/Scrum, Waterflow.
